

# Michał Wieczorek

Test Date:  
Nov 02, 2024

has successfully completed the HIGH5 strengths test and has the following set of strengths

## 1 Focus Expert

Focus Experts enjoy getting a project straight to the finish line rather than changing directions regularly. They focus on one thing at a time and dislike any distractions.

## 2 Catalyst

Catalysts love to get things started and are great at creating momentum in stagnant environments. They have a hard time waiting and so-called 'wasting time' when they know they could be moving forward and getting things off the ground.

## 3 Analyst

Analysts get energized when searching for simplicity and clarity within a large amount of data. They become frustrated when asked to follow their heart rather than proven facts and logic.

## 4 Believer

Believers' actions are driven by core values that cannot be compromised at the expense of success. Believers get drained if their beliefs and values are questioned, or if they have to do something that goes against their principles.

## 5 Strategist

Strategists look at the big picture, which enables them to easily find the best way out of the clutter. Because connecting the dots comes naturally to them, they may get impatient with people who make slower decisions.
